HURT IN A RUNAWAY.

MISS BERTHA ARGUST THE VICTIM OF A PAINFUL ACCIDENT YESTERDAY.

Miss Bertha Argust, a well known young lady of South Sixth street, was painfully hurt yesterday morning in a runaway. She and a young man started to the country to spend the day with friends, and as the young lady was being assisted into the buggy at Sixth and Husbands, the horse took fright and jerked away from the young man, who was on the ground. The animal ran two blocks and at Elizabeth street dashed into a telephone post, throwing the young lady violently out against it. She had an ankle sprained and was cut and bruised in several places, and was very ill all day from the accident, but today is reported better. Dr. Coyle attended her.

SCHOOL CAUCUS.

NEXT MONDAY THE TEACHERS WILL BE CHOSEN—BOARD

Meets Tonight—Only One Candidate for Superintendent—Examination of Teachers This Week.

The School Board meets tonight in adjourned session to sign the diplomas of the graduates who make their last appearance as pupils of the schools this evening at La Belle Park. The session will be very brief, only long enough to sign the diplomas. The Board will then go in a body to Commencement.

Next Monday the Board will hold its annual caucus at the city hall to select teachers for the ensuing year. There is but one candidate for the position of superintendent, Prof. C. B. Hatfield, present incumbent. There are several other applicants, but some of the members of the board claim that their applications cannot be considered, unless they are examined here and pass the examination. This will likely shut out all but Supt. Hatfield.

The teachers examination will take place Thursday and Friday next. The formal election of teachers will take place Tuesday a week from tomorrow, although the election will virtually be on Monday, when the caucus is held.

MARRIED TODAY.

A HART COUNTY MAN AND TRIGG COUNTY WIDOW WED—MARRIAGE AT METROPOLIS.

Mr. Sid Slaughter and Miss Maude Penst, both well known residents of Paducah, Ky., were married yesterday at the Julian hotel. Mr. Slaughter is a carpenter and is well known here. His bride is a very popular young lady and both have many friends to congratulate them in their venture.

Mr. A. F. Moss, a picture dealer of Hart county, Ky., recently in business in Mayfield and Mrs. Fannie Harper, of Trigg county, were married at the St. Nicholas hotel, this morning by Rev. Perryman. They left this morning for the groom's home to reside. They met in Mayfield and after a short courtship agreed to marry. They are well known in their home towns.

DEEDS.

Property in the county on the Metropolis and Mayfield road was sold to A. M. Ragsdale by G. W. Bumpass for \$150.

Adla Reiser sold to George Schmaus for \$47.70 property in the county. Property on Ashbrook Avenue in the Hayes subdivision of Mechanicsburg, was purchased by Amanda Barnes from L. R. Barnes for \$1 and other good considerations.

Mrs. Georgia Hill and Mrs. Smith transferred to Frank P. Hill and Ernest Karna, for \$1 and other considerations, property on the north side of Madison Street, between Eighth and Ninth streets.

L. R. Barnes deeded to S. F. Bailey, for \$1, property on Hayes Avenue in Mechanicsburg.

J. B. Bowles transferred property in the county to S. J. Melton for \$300. Malvina Holt and others deeded to William Englert, for \$300, property at Twenty-fourth and Broadway.

L. R. Barnes deeded to S. F. Bailey for \$10 and other considerations property in Mechanicsburg.

MOVES TO MAYFIELD.

Col. J. L. Lemon and wife left this morning for Mayfield, where they will select a house and move. Col. Lemon is now one of the proprietors of the Mayfield Messenger, one of the newest papers in the district, and will take his family to Mayfield to reside. His many friends here will regret that he is to leave Paducah.

THOSE CHANGES

Fulton Probably Will Get the Memphis Division Officers.

CHANGES EFFECTIVE JULY 1

Engineer Wilson Painfully Injured Today—Another I. C. Officer Goes to the Gulf and Ship Island.

NOTES OF GENERAL PUBLIC INTEREST

According to the Fulton Leader, on July 1 the Illinois Central railroad will begin to redivide all the southern divisions. The following are the changes that probably will be made: Supt. W. S. King will have his headquarters in Fulton and will occupy an office in the new general offices now being erected on the site of the old depot. Other division officials who will be moved there from Jackson and occupy offices in the building will be Roadmaster P. L. L. en, Bridge Supervisor G. M. Hubbard, Trainmaster E. P. Russell and the train dispatchers now located at Jackson. The trainmaster and train dispatchers from Memphis will also occupy offices in the building, headquarters at Fulton. It is said that Supt. W. S. King's territory will be considerably enlarged and that he will have charge of the Jackson division, East Cairo to Water Valley and also the Memphis division from Paducah to Memphis. It is said that Supt. A. Philbrick of the present Memphis division will be made superintendent from Memphis to Canton, Miss.

Mr. John Larson, one of the carpenters under the master carpenter at Chicago, is in the city taking an inventory of the buildings and making a report of their condition and the improvements made during the road's fiscal year which ends with this month. He has about finished his work and will return to Chicago with his report next week. The local buildings were found to be the very best condition and Paducah will stand comparison with any other city on the whole system.

Engineer J. D. Wilson was slightly injured on the right hand this morning. He was on the extra No. 24 north bound and when the first curve north of Dawson was reached he had his hand on the cab window sill when a piece of timber which had fallen off a car of lumber, and which was sticking up in the ground struck the cab and caught Mr. Wilson's hand. While the injury is not serious he will be disabled for a few days. The accident was a peculiar one and Mr. Wilson had a narrow escape from a more serious injury.

It is rumored that a well known I. C. engineer and a prominent young lady of Dyerburg will wed about July 1.

Mr. M. M. Hewitt, the local Illinois Central store keeper, returned from Louisville this morning after attending the funeral of Mrs. Adeline Hewitt, his grandmother.

Master Mechanic Barton is in Louisville today on business.

According to reports another Illinois Central man, General Foreman Brown, at Memphis, has resigned to go with the Gulf and Ship Island road. Mr. Brown is well known in Paducah where he has many friends.

Special Detective Dan Lehon, of the Illinois Central, is doing good work on the Memphis division. He and Marshal McNitt, at Mayfield, captured ten boys, who had been passing

the company much trouble. The boys were fined \$10 each. The detective also captured a desperate negro at Ripley for stabbing another negro.

After July 1 preachers will have to pay 25 cents for permits enabling them to get half fare rates. Heretofore they have had to simply file with the transportation companies prescribed forms which entitled them to the reduced rates. It will require them to buy the yearly book permits issued by railroad companies, which many of them have failed to buy in the past.

Mr. J. E. Gannaway, of Mayfield, has gone to Paducah Junction to accept a position with the Illinois Central.

MAY GET RICH.

COL. H. H. HOBSON GETS ENCOURAGING NEWS FROM TEXAS.

Colonel H. H. Hobson received a letter from attorneys in Beaumont, Texas, saying that it has been discovered that Mr. John Eaker, deceased, Colonel Hobson's father-in-law, owned property near the famous Beaumont oil fields. The lawyers are at work on the claims and will have everything clear in the course of a few weeks. Colonel Hobson answered the communication this morning and expects a reply within the next several days. The letter from the lawyers did not state the exact location of the land but say it adjoins the land now producing the oil.

WENT TO 100.

YESTERDAY WAS THE HOTTEST DAY OF THE SUMMER.

Yesterday the mercury went to 100 in the shade, two degrees higher than the hottest day of the season. Observer Bornemann, however, states that this temperature is not unprecedented, nor even unusual for this season of the year. The forecast is fair and cooler tonight, Tuesday fair. Today the temperature will probably not go above 90.

IS NOT SETTLED

The Question of Jurisdiction Will Not Be Decided Until Monday Next.

A BIG CROWD PRESENT

Judge Sanders is Inclined to the Opinion That McCracken Has Jurisdiction in the Case.

OTHER MATTERS IN POLICE CIRCLES

Sheriff Cowper and Jailor Threlkeld of Smithland, were at today's session of the police court to take charge of John Bulger and the others charged with rape and conspiracy to rape, namely John Gaynor and wife, Frank Eich and wife, and Boone Sears and Frankie White. They claim that Livingston county has jurisdiction in the case, and were here Saturday to investigate the prospect of getting them and were asked to return today.

There was an immense crowd in the court room, the throng being so dense that there was hardly standing room. Judge Sanders desired to dispose of the rape case first so the crowd could be reduced and when it was called, Attorney R. T. Lightfoot, attorney for the prisoners, arose and said that they desired to waive examination. John Bulger and Eich at this juncture arose and said that the attorney had misunderstood them. "That they all wanted a trial."

Attorney Lightfoot seemed to differ with them, and announced that he would throw up the case and he did so. The defendants then wanted Judge Campbell to defend them, but the latter stated that no arrangements had been made with him to represent them, so they are at present without an attorney.

Judge Sanders then stated that the principal thing to decide was the question of jurisdiction. That so far as he was concerned he would be very glad to be able to turn the prisoners over to the Livingston county authorities in case this county has no jurisdiction. The trials, however, would cost the people of Livingston county a great deal, all the witnesses residing in this county, and it would therefore be inadvisable to send them to Smithland for trial if they could legally be tried here.

From the authorities he has examined, he said, he was satisfied that this county had jurisdiction in all the cases except possibly that against Bulger, who is charged with the graver crime. The conspiracy was formed in this county although it was consummated in Livingston.

He understood Attorney John G. Miller, however, who has been employed to assist in the prosecution, and also represents the Livingston county authorities, had some authorities showing that this county has no jurisdiction in any of the cases, and will be ready to present them when the case is called again.

Judge Sanders intended to continue the case until tomorrow, but County Attorney Graves said he would be called away tomorrow and could not get back until next Monday. The court then continued the case until next Monday, and smilingly told the popular attorney that he would gladly give him a week, as he understood that he was going to St. Vincent's to bring a niece home, and that if he was going away to get married he would give him two weeks instead of one. The case was accordingly set forward until next Monday, and the prisoners remanded to jail.

The case against J. R. Brown, the fish merchant of Court street, charged with maliciously cutting Emma Bon-

field Saturday night, is set for tomorrow. They had a difficulty on lower court and Brown claims she waited for him to come out of a saloon and knocked him down. In the melee that followed, she was cut in the side and painfully but not seriously hurt, and it is not known who cut her. Brown denying it, it is alleged that she became incensed because he had called her "Cold Storage."

A case against John Pete Eaker, colored, charged with jumping on a freight train while it was in motion. Eaker claims he got on it through mistake thinking it was a local. He was fined \$5 and costs.

Pete Ross, S. Robertson and Charles Davis were fined \$1 and costs for plain drunks. The latter were strangers.

An immorality case against Marsh Hopson and Hester Walker was continued until tomorrow.

Thomas Gaines, for using insulting language, was fined \$5 and costs.

In a breach of the peace case against John Lewis and Henry Potter, Lewis was dismissed and the other case was continued.

Hillard Sandford was fined \$10 and costs for a breach of the peace.

Wiley Joiner, who was recently thought to be of unsound mind, was charged with mistreating his wife. He was recognized in the sum of \$500 for his good behavior towards her and all others.

THE LIGHTS WENT OUT.
Last night the electric lights at the Broadway M. E. church went out during the singing before services had begun. The congregation waited for some time for them to return, but they did not come back, and the crowd had to be dismissed. There was some trouble with the wires.

WESLEY'S ANNIVERSARY.
Today is the anniversary of the birth of the founder of the Methodist church, John Wesley. Yesterday in many places it was appropriately celebrated. There were no unusual services here.

HE IS NOW DEAD

J. J. Jones, of Calloway, Dies From an Alleged Assault.

EZELL ALLEGED ASSAILANT

Suit Was Filed Last Week For Damages Against Ezell in the Mayfield Circuit Court.

EZELL WELL KNOWN TOBACCO BUYER

J. J. Jones, a well known man of Calloway county, near Graves, died today at his home from injuries received some time ago in a difficulty with C. V. Ezell, a well known tobacco buyer of Mayfield.

It seems that Jones sold a crop of tobacco to one of the Ezell brothers, and when he delivered it at Mayfield delivered it to the other one, and got more than the contract price. When C. V. Ezell returned and learned of the delivery and the price paid, he produced his contract showing that the money paid was more than the contract called for and went after Jones whom he found standing in his wagon preparatory to leaving Mayfield for home.

It is said that Ezell walked up and after a few words seized a stick that was in the wagon and struck Jones with it, knocking him out of the wagon. The mules ran away and Jones was badly hurt, but it was not thought fatally.

A few days ago he brought suit against Ezell for \$5,000 damages for the alleged assault. It appears from today's dispatches that he never recovered, but finally died from the

He has won the trip by the large amount of business done since his installation into his present office. He is one of the best insurance men in the state and is rapidly coming to the front.

DIED IN HOSPITAL.

Van Jameson, colored, died at the Illinois Central railroad hospital yesterday. He had given his address as Springfield, Ill., but when a telegram was sent to his people he responded was received. There has been no disposal of the remains so far, and the officials are waiting for a communication from his people if they can be traced and found.

PADUCAH BOYS WIN.

The L. A. L. Baseball Club went to Metropolis yesterday afternoon in a wagon and met the Metropolis team in a match game. The local team was victorious by a score of 16 to 6. It was an easy walkover for the boys and adds one more victory to their already long list.

SPORTS GO TO ILLINOIS.

This afternoon a crowd of Paducah sports are over in Illinois enjoying a cock fight. There will be five contests between Princeton and Paducah birds and some lively sport is anticipated, if the Illinois deputy sheriffs do not catch on.

WILL BE DROPPED.

The regular meeting of the Council will be held tonight, and it is understood that no report in the city physician case will be made. The matter will probably be allowed to drop. The other matters that will come up were foretold in Saturday's paper.

A DAILY THOUGHT.
The formation of his character is not, as it ought to be, the chief concern with every man. Men wish merely to find a recipe for comfort, direction for acquiring riches, or whatever good they aim at.—Goethe.

THE SEWERGAE SYSTEM.

The Sun is gratified at the favorable notice the sewerage system is receiving in the city, both from the press, and among good citizens. The sewerage was built quite a little while ago, and as is usual when modern improvements are introduced into a city that is not used to them, the system was not regarded with the favor that would have been accorded if it had been started in a more up-to-date town. Mayor Lang was opposed to it, and in the last mayoralty campaign the sewerage and street roller were made an issue, and one of the principal arguments urged against the Republican ticket was that it was composed of or supported by the same gentlemen who composed the business men's council and who gave Paducah her sewerage system and bought a street roller.

It was not long after his election until Mayor Lang had been thoroughly converted to the excellence of both sewerage system and street roller, and he is a warm advocate of them to this good day. Many others who vigorously opposed them have since swung into line, until the change has been so great and significant that for a man to oppose either the sewerage system or the street roller is to confess to ignorance and prejudice of a very humiliating order.

The sewerage works perfectly, and some portions of it went three years without a cleaning [and were still in good condition]. The only drawback has been that some of the property owners in the sewer district have refused to connect, preferring to use the gutters in front of their house. The failure of the present administration to compel property owners to make sewerage connections has been a gross remission of duty that will have to be rectified in the near future.

Nothing short of a law compelling sewerage connections will suffice and the council might as well pass it now as at some future time. There has been talk of resisting such a law; so was there talk of resisting the payment of the sewer estimates. But those of them who were paid, and those who preferred to go to law were beaten in the courts, and had unnecessary costs added to the expense. A city has a right to pass any law essential to the health or good morals of the community, and for this reason, if no other, such a law would doubtless be upheld in the courts.

The sewerage system is a success so far as it has gone, but it has not gone far enough. The health of the city demands that every gutter be connected with it. The antiquated custom of running foul water into the gutters is unsanitary, unnecessary and unjust, and for the greatest good to the greatest number should be abolished. Paducah is too large and the matter of health and sanitation too important, to longer permit public nuisances on nearly ever block in the heart of the city.

BETTER SANITATION NEEDED.

Some of the councilmen have announced their indorsement of the plan suggested in the Sun a short time ago for disposing of trash and garbage. This plan is to run a public garbage wagon, or as many of them as would be required to keep the alleys and gutters free from filth. In the business part of town, where alleys are scarce, the trash from the stores, as well as all kinds of filth and garbage, are dumped into the gutters or onto the brick street. In other portions of town, the greater part of it is deposited in the alleys. The sanitary officers are powerless. They are only two of them to inspect the premises of over 20,000 people, and few of their notices are complied with. They order premises cleaned and the filth, if moved at all, is transferred from the yard to the alley, and becomes a public instead of a private nuisance. The gutters reek with filth and the odor from the alleys ascend to high heaven. Several years of experience have convinced the authorities that if these nuisances are properly abated, it will

have to be by some means not yet tried. The best plan suggested is that of having a garbage wagon. One trip a week would insure better results than are obtained under the present system. It is reported that the matter will be brought up for discussion in the council tonight, and the public garbage wagon advocated. After it has been established and gotten into good working order, the services of sanitary officers and the cost attached, may be dispensed with entirely, and the drivers of the wagons required to sweep out warrants against all who failed to comply with the law. The plan is well worth trying at any rate.

Some of the city council have lately been expressing more common sense than they were given credit for having. One is quoted as saying that in voting for street improvements hereafter he would consider the value of the proposed improvement to the public at large, and not the individual wishes of the property owner who has to pay for it. The question of who pays for sidewalks has been settled by the courts and whether right or wrong it will have to stand. Sidewalks are intended for the use and benefit of the public, not especially the man who pays for them, and when sidewalks are proposed, their necessity or advisability as a public improvement should be considered above the wishes of the property owner, who rightly or wrongly has to pay for them. This view of things is what makes a town. If in the past more attention had been paid to public demands and less to private protests Paducah would today have miles of brick streets, would be thoroughly sewered and be a great deal larger and more up-to-date than she is now. A man in front of whose house there is no sidewalk has the advantage of being able to walk over miles of sidewalks in other parts of town that somebody else has paid for. When his locality becomes important enough demand a sidewalk, the sidewalk should be built, whether he is willing or not. The people should not be deprived of enjoying the same benefits at his hands that he has enjoyed at their hands. The proper way to build up a city is to consider at all times in all things, the greatest good to the greatest number.

A Connecticut judge has decided that a Sunday shave in Connecticut is a necessity, just as a Sunday "eye-opener" in Kentucky is a necessity. He acquitted the barber, and said:

"We have come to an age when these matters must be considered with judgment and with common sense. People as a rule are extremely busy during the week, and when they go into a barber shop in an orderly manner to prepare themselves for the proper observance of the day, I do not believe that it could be considered a criminal offense."

The courts are slowly but surely, whenever the opportunity presents itself, administering rebuke to officers who are too handy with their pistols. Some time ago a sheriff of Fulton county ordered two young men in a buggy to stop, mistaking them for some one else, but they kept going. He shot at them, and when the buggy was stopped a short distance away it was discovered that one of the occupants was dead. His administrator brought suit against the officer and his bondsman and got a verdict for \$2,500, which the appropriate court has affirmed, and the officer's bondsman will have to foot the bill.

The Louisville Commercial says that the Paducah Democrat's suggestion that Kentucky be so gerrymandered that "there will not be a remote idea of the Republican party controlling the legislature or anything else," is superfluous, as it could hardly be worse gerrymandered than it is at present.

The Philadelphia Record has started a boom for Benjamin J. Yerkes for president, and it is said he will be backed by the Kentucky delegation in the next national convention. Commissioner Yerkes is one of the ablest men in the Republican party, and is universally popular.

Col. W. J. Bryan is to deliver two Fourth of July orations next month. It is gratifying to learn that Col. Bryan has at last discovered his true forte.

The readers of this paper will be pleased to learn that there is at least one dreadful disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. The following article is taken from the Columbus Critic and as the little steamer Hook White mentioned in the article is well known here as being the most diminutive specimen of anything approaching a steamboat ever built the Columbus Critic's notice will appear comically amusing to the river fraternity of Paducah. Hook White, a small excursion boat, owned by Dr. Hobbs, of Arlington, Rev. Hall, Fulton, and Messrs. J. N. Jones and Ed H. Ellis, of Keokuk, Iowa, will make Columbus headquarters. The boat is now here and undergoing repairs, and as soon as it is put in first class shape it will be open to engage. The boat will be in charge of O. H. Smith, superintendent; J. N. Jones, Captain and Ed H. Ellis, engineer. The officers seem very affable and the Critic believes in pursuing a courteous manner and offering reasonable terms, they will find this a good field in which to operate. Well Babies Are Good Babies

MOST LITTLE BABIES DIE, either from bowel troubles or from diseases which they contract because they are in a weak and feeble condition from bowel troubles.

Mothers who are seeking the ideal and proper medicine to give their little ones for constipation, diarrhea, colic and simple fever will find LAXAKOLA the great family remedy.

It is the best and most effective laxative for children. BEST because it is safe and made entirely of harmless ingredients. BEST because it is non-irritating and never causes "Cholera" like other laxatives. BEST because it is sure and never fails. BEST because it is quick and acts for itself.

It is a dangerous thing to give little babies violent remedies that rack and rend their little bodies. DON'T DO IT—give them LAXAKOLA.

A few drops can be given with safety to very young babies, and will often relieve bowel up-colic and clear the coated tongue.

Great relief is experienced when administered to young children suffering from diarrhea, accompanied with white or green evacuations, from the fact that LAXAKOLA neutralizes the acidity of the bowels and carries out the cause of fermentation, aids digestion, relieves restlessness, assists nature and induces sleep.

LAXAKOLA is a gentle and safe remedy to use during all conditions of health of the mother and child. It is a powerful and delicate cathartic regular a and effects which otherwise could not be obtained. It is invaluable in relieving all conditions which obstruct the bowels and cause the child to suffer from colic, constipation, indigestion, and all other ailments of the bowels and stomach. Observationsat Random

A certain young man of the city has
recently begun writing to his "best
girl" on the typewriter. This has
caused some wonderment, but at last
a bright person offered what seems a
reasonable explanation of a proceed-
ing so unusual. This is the day of
the publication of love letters, and
the young man with an eye to a prob-
able demand for his own effusions,
is already arranging them in manu-
script form. We venture they will
prove something worth reading, and
bright into edifying.

There is no necessity in anyone be-
coming alarmed at the action of the
Baptist Ministers at Murray last week
in reference to divorce. The Baptist
ministers have held practically the
same view heretofore, and one said
yesterday: "The action of the asso-
ciation had no special significance.
It leaves every minister to do just as
he pleases, as before, but I do not
know of any Baptist ministers, any-
way, who would marry a divorced
person unless the divorce was ob-
tained on Scriptural grounds."

There is one quite so funny as the
unconscious wits of the rural
press. Here are a few scraps of the
Brookport Eagle's special correspon-
dence:

Mr. Neftzger and son Jess, made a
flying trip to Paducah last Friday,
and purchased a new buggy. Look
out girls.

Jasper Jurado made a flying trip
to Paducah, one day last week and
purchased a new buggy.

Why not wash your feet in Charlie
Mitchell's new bath tub?

Frank St. John had the cramps Tues-
day.

Dr. R. S. Doherty returned from
Central, Ill., where he had a position
fooling people.

Don't forget the new bath tub at the
L. C. barber shop.

A Ben Hoy Lodge was organized
Tuesday night with eighteen mem-
bers.

We are having some good rains
which are good for the growing crops.

Eddie McBride and Miss Mina Rie
were riding around Sunday even-
ing.

John Black went to Metropolis Wed-
nesday to load up ties and give them
room to fight.

Hugh Wilson has purchased a fine
cow from Mrs. Jane Chalk.

Mr. and Mrs. William Sharp and
Grandpa Sharp and wife, and Mr. and
Mrs. Spangley were callers at J. W.
Sharp's Sunday.

Felix Dillard and Miss Florence
Morehead were out driving Sunday
evening.

A great many of our people were
fishing last Sunday.

Miss Ada Matthews was a pleasant
caller on Misses True and Vida Bagley
Sunday.

Grant Rankin is building a new
house here.

Here is a snake story from the Ben-
ton Tribune. One of two hired hands
on the farm of Mr. Smith, the hotel
man, was plowing in the field the
other day, and among the other
things he had with him was a water
jug, which was placed in a furrow
with dirt all around it to keep it cool,
leaving the handle of the jug uncov-
ered.

Upon going to get a drink sometime
afterward the hand found a mam-
moth chicken snake fastened in the
handle of the jug, with a large frog
on either side of the handle of the
jug which the snake had swallowed,
thus keeping him from going back-
wards or forwards. It is supposed
that the snake, when it had swallowed
the frog, pursued a second to the
jug and when it made its strike ran
its head through the handle of the
jug, thus fastening itself so tight
that the man had to break the jug to
get the snake loose.

This may sound a little spaky to
some as it does to us, but if you don't
believe it just ask the hotel man about
it. There is nothing too strange to
happen these days.

A. O. Blanchard, West Bangor, N.
Y., says: "I have been troubled
with kidney disease for the last five
years. Have doctored with several
physicians and I got no relief until I
used two bottles of FOLEY'S KID-
NEY CURE."

MARRIED AGAIN.

E. G. Woodward and his wife, Mrs.
Maud Woodward, were remarried at

man who was here searching for her

about whom there was a great deal
said in the papers at the time. She
had formerly done newspaper work in
Chattanooga, Tenn.

QUICK RELIEF FOR ASTHMA.

to give immediate relief."

pleted by the distribution of flowers on

Cracken county Sunday school asso-
ciation will be held at Palestine

will be present are Revs. G. W.
Briggs, W. H. Pinkerton, G. W. Per-
ryman and J. C. Reid. Verily a feast
of good things has been prepared for
all lovers of the Sunday school cause.

Allen Halverson of West Prairie,

to buy FOLEY'S KIDNEY CURE,"
while J. A. Sperry of Helmer, Ind.,
says: "It is the medical wonder of
the age."

SUITS FOR DIVORCE.

Mrs. Lizzie Augustus has filed suit
in circuit court against David Augus-
tus for divorce and the custody of
Adam, their three year old child. She
alleges cruel treatment and non-sup-
port.

Cora Blizard sues George D. Bliz-
ard for divorce on the grounds of al-
leged cruel treatment and abandon-
ment and asks for a restoration to
her maiden name Cora Johnson, and
the custody of their four year old son,
Roy.

NEW NIGHT CLERK.

Mr. Charles Bradford, of Indian-
apolis, Ind., has accepted a position
as night clerk at the New Richmond
Hotel succeeding Mr. Louis Rutter,
who has taken charge of the Commer-
cial house recently purchased by his
father.

Edward Hues, a well known busi-
ness man of Salisbury, Mo., writes:
"I wish to say for the benefit of oth-
ers, that I was a sufferer from lum-
bago and kidney trouble, and all the
remedies I took gave me no relief. I
was induced to try FOLEY'S KID-
NEY CURE and after the use of
three bottles I am cured."

Mr. James Roper and Miss Macy

married yesterday at the home of the
bride. Rev. Overby officiating. They
are prominent young people.

Ira D. Rockard, Dancone, Ia.,
writes: "My little son scalded his leg
from the knee to the ankle. I used
BANNER SALVE immediately and in
three weeks' time it was almost
entirely healed. I want to recommend
it to every family and advise them to
keep Banner Salve on hand, as it is a
sure remedy for scalds or any sores."

COWS, HORSES AND HOGS.

Beginning June 12, the police will
be required to enforce the stock laws
of the city. Keep your cows in at
night and your horses and hogs at all
times, day and night, or if missing,
call at the public pound. If the
police will not enforce the ordinances
of the city, others will be sought who
will do so. The city does not desire
to prosecute without first giving
notice. JAS. M. LANG, Mayor.

Tomorrow morning the work of preparing the fair grounds for the Red Men's Fourth of July celebration will begin. The huts, tepees and other things necessary for the splendid performance intended to be given will doubtless be completed by the end of the week, and rehearsals will begin probably next Tuesday.

Reduced rates on all the railroads will draw large crowds, and the celebration will be the only one of consequence in Southwest Kentucky, and will attract thousands of strangers.

MARRY WEDNESDAY. Marriage of Mr. Charles Rann and Mary Radnedge will be celebrated Tuesday afternoon at 4 o'clock at the Catholic parsonage, officiating. Both are young people.

GOOD SERMON.

REV. J. C. REID PREACHED TO THE GRADUATES LAST NIGHT.

There Was a Large Crowd to Enjoy the Splendid Discourse of the Able Divine.

A large crowd was at the Cumberland Presbyterian church last night to hear the Rev. J. C. Reid's sermon to the graduating class of the Public High school. The church was attractively decorated for the occasion, flowers were banked about the altar and the class colors of pink and white were in evidence.

Mr. Reid's subject was "The Importance of Rightly Directed Thinking," and was a most eloquent and able exposition of the text "Whatever things are true, whatever things are honest, whatever things are just, whatever things are pure, whatever things are lovely, think on these things."

He dwelt on the importance of truth, honesty, justice, purity and beauty in the lives of the American people, and stressed the duty of citizenship. The speaker showed himself a student and a thinker, advanced, broadminded, liberal, and courageous. The sermon was a strong one, full of practical helps for everyday living, and glowing with patriotism, vigor, strength and eloquence. The class of 1901 are fortunate to have had such earnest and inspiring words to "think on," and the memory of them will be a help in their duties of progressive Christian citizenship.

The Broadway Methodist pulpit was ably filled yesterday by the Rev. Mr. Mann, of the Baptist church, of Shelbyville, Ky. His sermon in the morning was strong and earnest. Trouble with the electric lights prevented services in the evening.

Rev. F. W. Beattie, of Louisville, a minister of prominence in the Presbyterian church, occupied the pulpit of the First Presbyterian church yesterday both morning and night. His able and eloquent sermons were heard by an interested congregation.

Rev. A. F. Baker, a visiting minister, preached at the First Baptist church yesterday. He is an eloquent speaker and his sermons were heard with pleasure and profit.

Rev. J. T. Brown, of Louisville, who is the editor of "The Christian Guide," preached at the Tenth street Christian church in the morning and the First Christian church at night.

RUNAWAY COUPLE.

MAYFIELD NEGRO AND GIRL.

Marcus, Pullen, colored, who is charged with having seduced and run away with a 14 year old girl at Mayfield several days ago, was captured this morning on the steamer Cowling in company with the girl, by Officer Tom Orr. Officer B. A. Williams of Mayfield, is in the city and will take the couple back to Mayfield. There is a reward of \$10 for their capture, and it will go to Officer Orr. The catch is a good one and reflects much credit on the Paducah office.

Smart Set Has Trouble.
The town of Harrison, O., has a peculiarly its own. It's a rupture in the smart set. The Currier club, whose membership is composed of well young men, entertained a company of men and women guests and served Welsh rabbit and beer. The fact that the amber fluid was so hospitably dispensed shocked the good church-going people of the village. The social rumormongers that ensued knocked the club's contemplated "regular ladies' evening" onto the table of "further consideration." This aroused the anger of the ladies, who had looked approvingly upon the rabbit and beer. The most pronounced in her views was Mrs. Frank Bowles, wife of the banker, who is the leader of the social swim. She invited the members who had held out for Welsh rabbit and beer to her residence. It was a fashionable function. But it didn't vanquish the promoters of crackers and lemonade as "refreshment." The trouble is still on.

The Sun, Paducah's best paper.

Y. M. C. A. NOTES.

A very interesting program has been arranged for the reception at the Y. M. C. A. Tuesday evening to thoroughly discuss the swimming pool project.

Mr. Harry Poppe will recite, Mr. John Miller will play a violin solo, Master Henry Cave will play a mandolin solo and Miss Ethel Brooks will render a vocal solo. There will be several more numbers that have not yet been arranged. A cordial invitation is extended to all and a large attendance will be prepared for. Refreshments will be served and the reception will be one to remember.

Secretary Escott spoke to the men and to the boys at the association yesterday afternoon. There was a fair attendance at both meetings notwithstanding the memorial services at the cemetery.

FIRST UMBRELLAS.

Required Courage in Jonas Hanway to Carry Original One.

About 150 years ago, on a very wet, disagreeable day such an umbrella carrying an umbrella. "And what of that?" some one may say. "You can see one hundred of people doing the same thing on any rainy day." That is true, but a century and a half ago you could not have seen a single person in England carrying an umbrella to protect himself from the rain. People said: "A man who cannot stand a little wetting is a rather weak man," and so they allowed nature to shriek her showers down upon them at pleasure. But finally there was a man who thought differently, and in those days it took a good deal of character to come out and oppose the old beliefs and do contrary to public opinion. Jonas Hanway was strong enough to do this, and knowing that he would be greatly ridiculed for attempting to do such an unheard-of thing, he dared on this rainy day to walk out in the streets carrying an umbrella over him! People stared at him in astonishment, rude boys laughed and called after him, and some of the rudest threw stones at him. The idea of trying to protect one's self from rain! Why, no one had thought of such a thing in all those years! Some of the wealthiest people had umbrellas in their houses, and servants sometimes held them over the heads of "my lord and lady" as they stepped out to their carriages in a heavy rain, but no further use was made of them. But Jonas Hanway bore the ridicule and still carried his umbrella until by and by people began to think it was not such a bad thing after all, and today people think big news of carrying an umbrella when they do so.

In China and Japan umbrellas are made of silk and waterproof paper, beautifully painted and gilded. In China the rank of a person is shown by the number of umbrellas that are carried in front of him. The emperor has twenty-four, the heir to the throne ten, and those of a lower rank must carry a less number.

Smart Set Has Trouble.

The town of Harrison, O., has a peculiarly its own. It's a rupture in the smart set. The Currier club, whose membership is composed of well young men, entertained a company of men and women guests and served Welsh rabbit and beer. The fact that the amber fluid was so hospitably dispensed shocked the good church-going people of the village. The social rumormongers that ensued knocked the club's contemplated "regular ladies' evening" onto the table of "further consideration." This aroused the anger of the ladies, who had looked approvingly upon the rabbit and beer. The most pronounced in her views was Mrs. Frank Bowles, wife of the banker, who is the leader of the social swim. She invited the members who had held out for Welsh rabbit and beer to her residence. It was a fashionable function. But it didn't vanquish the promoters of crackers and lemonade as "refreshment." The trouble is still on.

STATE INSTITUTE WILL BE INVITED

McCracken County Farmer Will Meet Here Saturday.

Saunders Fowler and Charles Lamont Will Tell What They Saw At Villa Ridge.

KENTUCKY BERRIES ARE BEST

Plans for capturing the State Farmers' Institute for next year will be put on foot at a meeting of the McCracken County institute, which meets at the court house in Paducah, Saturday afternoon, June 9, at 2 o'clock.

The executive committee of the state institute, which will choose the place for the holding of the meeting meets at Louisville, June 12 and McCracken county probably will send a delegation to Louisville to urge the claims of this city for the meeting.

The state institute is attended by the most progressive farmers of Kentucky and the commissioner of agriculture secures the best speakers and most scientific agriculturists in the country to address the farmers. For this reason the bringing of the institute to Paducah will be of incalculable benefit to the farmers of McCracken county, who without expense will be enabled to attend the sessions and listen to the speeches.

At the county meeting Saunders Fowler and Charles Lamont, who went to Villa Ridge, Ill., and investigated the method of raising and disposing of berries and fruit will report to the institute what they saw. Mr. Lamont said that while berries were selling on the market in Paducah for 75 cents they were selling in carload lots at Villa Ridge for \$2 per crate. The McCracken county berries, he said, are a better quality.

A large attendance Saturday is expected.

The Wellman expedition, he said, will utilize the true seamanship of the aerial sea and not depend on a raft as Andre did in his aerial attempt.

HARNESS THIEF MAY BE ARRESTED

Chief Collins Believes He Has the Right Man.

John Polk, Colored, Identified as Having Disposed of Some Stolen Property.

PRISONER DENIES THE CHARGE

In the arrest of John Polk, colored, residing on South Tenth street, the police think they have captured the "harness thief" who has been looting stables for the past two months.

Polk was arrested this morning by Officers Scott Ferguson and Ernest Hill near Eighth and Harrison streets. He was identified as the negro who sold a set of harness to Henry Coleman, the dairyman. The harness was later identified by M. M. Tucker as his property. It had been stolen from his stable on a short time.

Polk denied that he had been stealing or selling harness.

Chief Collins believes that he has the right man and stated that Polk had told him enough to convince him of the negro's guilt.

"I believe fully twenty-five sets of harness have been stolen and want every one who has bought harness from a negro or any one else not a harness dealer, to come to my office and look at Polk," Chief Collins stated at the hall. "We believe we have made an important capture and will investigate the case thoroughly."

Rufus Sullivan, residing on Kentucky avenue, was arrested this morning on suspicion of being wanted for the same charge. He answers a description furnished by a man who lost harness, but Chief Collins does not believe he is guilty.

Vincennes at Danville.

The Hyphens beat the Indians in a ragged game at Wallace park yesterday afternoon, the first of the present Jacksonville-Paducah series, and it was anybody's game until the close of the ninth inning.

Allen did not have anything to speak of, but held hits down to six. Miller might have pitched better ball had he been able to control his steam, but every inning a score was made it was where a man either walked or was struck by the ball.

It was a piece of bad luck. The Indians were crippled in a measure, Gilligan being out of the game, called away on account of his wife's illness, but Ben Nippert played a good game on second sack.

The visitors scored first in the second inning. Lutzshaw was struck by the ball and advanced to second on a wild pitch. Hagel sacrificed and Bertie bunted to Miller, who "footed" the ball out of the diamond; Lutzshaw scoring and Bertie making safe. The next two were retired without trouble.

The Indians tallied in this inning. Wetzel singled and went to second on Belt's wild throw. Lloyd singled and Taylor scored on the hit. The next three were retired with ease.

In the third inning the Indians scored again. Wetzel walked after two were out and Lloyd singled. Taylor doubled and Wetzel scored. Perry failed at three, retiring the side.

The Hostlers evened it up in the fourth. Hughes walked and Lutzshaw sacrificed. Hagel grounded out and Bertie's single scored Hughes. The side was then retired.

The winning run was made in the sixth. Hughes singled and Lutzshaw fanned. Hagel singled, stole second and Bertie walked. Belt hit to Wetzel and the latter let it get away, the winning run scoring. The side was then retired.

Nursing Mothers and Malaria.
The Old Standard Grove's Tasteless Chilli Tonic drives out malaria and builds up the system. Sold by all dealers for 27 years. Price 50 cents.

A Heavy Load to Carry.

Along with dyspepsia comes nervousness and general ill-health. Why? Because a disordered stomach does not permit the food to be properly digested, and its products assimilated by the system. The blood is charged with poisons which come from this disordered digestion, and in turn the nerves are not fed on good, red blood, and we see symptoms of nervousness, sleeplessness and general breakdown. It is not head work, nor over physical exertion that does it, but poor stomach work. With poor, thin blood the body is not protected against the attack of germs of grip, bronchitis and consumption. Fortify the body at once with Dr. Pierce's Golden Medical Discovery—a rare combination of native medicinal roots without a particle of alcohol or dangerous habit-forming drugs.

A little book of extracts, from prominent medical authorities extolling every ingredient contained in Dr. Pierce's Golden Medical Discovery will be mailed free to any address on request by postal card or letter. Address Dr. R. V. Pierce, Buffalo, N. Y.

Many years of active practice convinced Dr. Pierce of the value of many native roots as medicinal agents and he went to great expense, both in time and in money, to perfect his own peculiar processes for rendering them both efficient and safe for tonic, alterative and rebuilding agents.

The enormous popularity of "Golden Medical Discovery" is due both to its scientific compounding and to the actual medicinal value of its ingredients. The publication of the names of the ingredients on the wrapper of every bottle sold, gives full assurance of its non-alcoholic character and removes all objection to the use of an unknown or secret remedy. It is not a patent medicine nor a secret one either. This fact puts it in a class all by itself, bearing as it does upon every bottle wrapper the badge of Honesty, in the full list of its ingredients.

The "Golden Medical Discovery" cures, weak stomach, indigestion, or dyspepsia, torpid liver and biliousness, ulceration of stomach and bowels and all catarrhal affections no matter what parts or organs may be affected with it. Dr. Pierce's Pleasant Pellets are the original little liver pills, first put up 40 years ago. They regulate and invigorate, stomach, liver and bowels. Much imitated but never equalled. Sugar-coated and easy to take as candy. One to three a dose.

Umpire Bush quit the game yesterday. He refused to umpire because he got "called down" by President Gosnell. Bush has done good work except in the first few games. At Mattoon several days ago the manager of the Hoosiers, Eddie Kolb, was fined by Bush for disobeying ground rules, and Bush claims that Kolb was instrumental in getting him called down. Gosnell, it is alleged, accuses Bush of being partial, and not in favor of the so-called "Champs."

Lloyd is after four men to secure one good one. "I have four fine infielders on the string and hope to land one of them," he stated. "I do not desire to give names but I will have a perfect infield all right."

It is said that Eddie Gilligan is not coming back to Paducah.

Big Dan Wright will pitch today. He had played 34 games and out of that number has lost two. He has been pitching independent ball for Ironton, O.

HOME RENTED

A YOUNG COUPLE MAKE ALL PLANS FOR HOUSEKEEPING.

Then They Quietly Cross River and Are Married, to Surprise of Everybody.

Mr. Dan Schoffner, a well known young man of the south side, and Miss Katie McLaughlin, of Littleville, were married in Metropolis yesterday, returning to Paducah on the night boat. The wedding was a surprise to their friends.

The young lady is a daughter of James McLaughlin, of the Illinois Central and is in the south side. The groom is employed by the Paducah Hardware and Iron company and has many friends. The marriage had been planned two weeks, the couple even going so far as to rent a house that far in advance, and were ready to go to housekeeping on returning from the Gretna Green. They will reside on the south side.

IT'S ALWAYS BAD

The Best of Backs Are Bad When They Ache, and Paducah People Know It.

A bad back is always bad. Bad at night when bedtime comes. Just as bad in the morning. Ever try Doan's Kidney Pills for it?

Know they cure backache—cure every kidney ill?

If you don't some Paducah people do.

Read a case of it:

Mrs. Charles Williams, of 700 Terrell street, says: "Despite the use of plasters and home remedies, my back ached almost continually, and as my husband continually complained of his, we were both constantly on the outlook for some means to check or eradicate the cause. Reading one night about Doan's Kidney Pills induced us to get that remedy at Alvey & List's drug store and take them. Two boxes thoroughly proved that the preparation acts up to the representations made for it."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

TO SCRAP HEAP WITH OLD MEN

Exclaims Speaker Before the
Medical Association.

Some Gray-Headed Doctors Demur,
But Hutchinson Clings to His
First Assertion.

WOULD DIE IN THE HARNESS

Boston, June 6.—"After men have drunk of life to the limit, and after every bit of their vital energies has been used up, I believe that they ought to go to the scrap heap," declared Dr. Woods Hutchinson in a talk at the convention of the American Medical Association. Many of the physicians who are delegates to the convention are of advanced age, and protests came from all parts of the hall. Dr. Hutchinson, who is head of the Red Plains Sanatorium in California, refused to yield in the stand he had taken.

"It is a lamentable spectacle," he continued, "to see an old man clinging to life with determination, when his faculties are greatly impaired. He is only occupying the place that should be given over to a younger man."

"For instance, if I have a patient who has an organic disease, and it is just a question of time when death must ensue, I advise that patient to go in and work hard at whatever he is interested in and be working when the thread of life snaps. Perhaps that patient could, by dragging along, live ten years. I tell the man to be energetic and, even if it ends his life in three years, he dies in the harness instead of dragging out a miserable existence."

When asked if he believed in Dr. Osler's views, Dr. Hutchinson said: "Yes, I do. Of course, he has been misquoted and misunderstood. He did not advocate chloroforming people at the age of 60, as some people think, he simply thinks that most of life's effective work is done before reaching that age. I agree with him, and I think young men should have a chance to show their ability."

Low Rates to the Home Coming.

On account of the home coming for Kentuckians, Louisville, Ky., the Southern railway will sell tickets from all of its stations to Louisville at rate of one first-class fare plus twenty-five cents for the round trip on June 11, 12 and 13, with return limit of June 23, 1906. An extension of this limit may be obtained to leave Louisville not later than thirty days from date of sale, by depositing ticket with the joint agent and making payment of fifty cent fee.

An elaborate program has been arranged and the occasion will prove an exceedingly interesting one to all Kentuckians. A number of special trains have been arranged for from St. Louis, Kansas City, Denver, Texas and other points in the west, southwest and southeast and a large number of ex-Kentuckians will return to their native state to visit old friends and relatives. MANY TEACHERS

DURING THE SUMMER.

Postponement of Election By Board
May Delay Plans of Some of
Them.

The action of the school board by postponing the election of teachers, necessitated by the illness of Supt. C. M. Leib, will cause a slight delay to some teachers who desired to leave immediately after the close of school for colleges and summer normal schools for training in their work.

There are many Paducah teachers who contemplate going, among them being nearly the entire faculty of the High school. The list in part has been published, but a more complete list was furnished this morning. Some will go to Chicago, some to Virginia, some to Nashville and some to St. Louis and other cities, the place being selected later.

The list is as follows: Supt. C. M. Leib, Principals E. G. Payne, J. A. Ragsdale and Miss Ada Brazelton, C. L. Woodbury, Misses Mamie Noble and Susan E. Smith, W. E. Everett, Misses Louise Deldrich, Blanche Ingram, Lucy Moore, Mabel Roberts and Sue Atchison, W. H. Sugg and Miss Mary Gray Cummins.

FOUNDRY

WOULD BE BUILT HERE BY
HARRIMAN INTERESTS.

Paducah Might Benefit in Absorption
of Illinois Central By Union
Pacific.

The question of the controlling interest of the Illinois Central railroad system is of vital importance to Paducah, this having leaked out this morning through an unexpected source. If the Union Pacific road really secures control of the Illinois Central next year, as some claim it will, it will mean a big improvement in the shops and will bring an industry here employing many men.

"If the Union Pacific road really controls the Illinois Central and takes charge and runs it next year," a railroad man acquainted with the inside facts of the matter stated this morning, "it will mean a big foundry here in addition to the already large shops."

"The Illinois Central has a small foundry here, in the rear of the round-house, but only the lightest castings are made. The road sends all the patterns for heavy castings to Chicago."

The matter of ownership of the Illinois Central has puzzled the public for some time, first a statement affirming the report that the Harriman interests control it being circulated only to be killed by a counter statement from some other source. It was not, however, considered a matter of importance to Paducah until the statement this morning.

In fact from indications the Union Pacific will make wonderful improvements, if it gets hold of the road for active operation.

NEEDS CITY HALL OF LARGER GIRTH

Paducah's Offices Are Too
Crowded for Records.

Many Schemes Suggested From Ex-
tension to Structure on Entirely
New Site.

COUNTY AND CITY BUILDING

Paducah needs a new city hall.

This fact is so apparent that the majority of citizens have taken it for granted and forgotten about it. Not only is the present building unsightly, but it is too small and the proposed plans for remodeling the interior were abandoned, because it simply has not the capacity to accommodate the city's business.

This especially is noticeable on the second floor, where the city auditor, city treasurer, city clerk and tax collector are all crowded into two little ante-rooms, which together would be not more than sufficient to accommodate any one of the officials conveniently.

The auditor, clerk and treasurer have numerous large books, besides other records, which they must keep open to citizens at all times, and among these books the officials and their assistants must work. As the city grows older and larger these records necessarily accumulate until soon their disposition will be a problem.

Several plans for remedying the conditions have been suggested. The city owns property to the east of the building on which a row of old frame structures now stand. The building might be extended by the addition of an east wing but that would necessitate the complete alteration of the interior of the present structure. The offices now are so situated that they could not be arranged in suites with the rooms of an addition, and the additional space would not be available without tearing out the interior.

The city hall is a cheaply constructed affair and objection would be made to spending any more money on it. It is suggested that as the city has sufficient property at Fourth street and Kentucky avenue a new city hall might be built there.

Some of the city officials object to this because the city has grown past that section, and it is neither conveniently nor attractively located. A location more in the heart of Paducah, as she is growing, is advocated by those who object to the erection of a handsome building in a neighborhood where it would never appear to the best advantage.

A Joint Building.

City Treasurer J. J. Dorian has a scheme in mind: That of the city and county going together and erecting a joint county and municipal building on the court house site.

"In that way," said Mr. Dorian, "we could have a fine building at a minimum cost on the court house lot, one of the handsomest and best located in Paducah. I think terms can easily be arranged. The court house could occupy one side and the city hall the other side. I can see no objection to such an arrangement."

Another plan is the purchase from the school board of the Longfellow school property at Fifth street and Kentucky avenue. The school board is trying to sell the property. The school is a better appearing building than the city hall, and if it can not be utilized it is argued that the corner offers a suitable site for a city hall for generations to come.

Some object to the joint county and city building on the property that in that way the outlay in public buildings and improvements makes less of a show.

Daily Thought.

"To be ashamed to work is the disgrace of the degenerate."

"Local and outside capital is interested in the development of Kentucky's resources as never before, and some of the enterprises under way are of the first magnitude. There is much remaining to be done before the hill lands have reached the development the bluegrass section has so long enjoyed."—Manufacturers Record.

Herein lies one of the errors the people of the Purchase must overcome. It is the bluegrass and the mountains to the outsider. Unsung of story and verse the Purchase is outstripping every other section of the state, but how much faster she could grow if only her advantages were advertised to the world. The excerpt is from an editorial speaking of the possible results to Kentucky when all the guests of home coming week carry away with them reports of the marvelous growth and development of their native state. It behooves Paducah citizens to hasten to furnish names of former residents to the Commercial club, that they may be invited to Paducah June 19 to see how this city has grown. Then the citizens should see to it that they cooperate with the Commercial club in its campaign of systematically keeping Paducah's advantages before the world.

The California doctor may hold to his views about the age limit, but the "old man" who has stuck to his post and worked up while a young man until he has made himself an indispensable part of the business, is in no danger of anaesthetics. Isn't all this talk about age limits and "has-beens" rather silly, not to say cold-blooded, coming from members of a profession, half of whose art lies in gentleness and whose services we engage to preserve our lives—not to tell us when it is time to die?

It was an insult to the American laboring man to say he "will follow the leadership of his Russian brother." The American laboring man will follow the lead of no class in any country. He would have to turn backward to fall into another's wake. And we are all laboring men in America.

The Louisville Herald says there are over one hundred present at the meeting of the newspaper circulation managers. Couldn't the Herald get some of the circulation men to swear to the exact number present?

Emma Goldman, the anarchist fury, said in her Chicago tirade that she would rather "enjoy the friendship of the vilest prisoners than of the president." The authorities ought to help Emma choose her company.

Now, who would have thought a discussion of the servant girl problem would precipitate a riot at a meeting of women?

Matchless Workmanship.

Most diseases are of spinal origin. That is a characteristic generalization of Osteopathy in a nutshell, and is a contention that has never been disproved.

The Osteopathic diagnosis, and treatment are new and original, and its percentage of cures have attracted wide attention. This is history that cannot be successfully challenged.

We apply in a new way and with new force, old principles that are a part of the recognized, but theoretical teachings of every school of practice, but in an unsystematic form.

You cannot study the anatomy of the spine without marveling at it so seldom gets out of order. It is the most matchless piece of workmanship in all mechanics, and he wonders is that it should, sometimes, from the way it is abused, do its work at all.

By all laws of physics, the spine is liable at any moment to get out of order; it is subject to slips, wrenches, pressures, dislocations, sprains, contractions and congestions—any one of which will set up disorders—all of which require only an intelligent engineer to adjust to relieve and cure.

The Osteopath is that engineer. In just a few moments I can easily explain to you why and how Osteopathy is achieving such a wonderful success in curing all kinds of chronic and acute illnesses and I shall take great pleasure in doing so.

Just now you may have a touch of the Spring ailment, to which we Paducahans are heir. If so, let me tell you how easily, how quickly such ailments yield to the Osteopathic treatment.

PADUCAH DEPARTMENT

Praised By Representative of Fire Engine Company.

Mr. T. R. Polglase, of Chicago, representing the American La France Fire Engine company, is in Paducah en route south and made an inspection of the Paducah fire departments. Mr. Polglase sold the city the new chemical wagons and the old truck which was bought thirteen years ago. This is the first time Mr. Polglase has been in Paducah for two years and the improvements he stated were wonderful. "You have a sure enough fire department now," he declared, "and you will not find a better equipped or manned department of its size in the country I am thinking."

The visitor was high in his praises for the firemen. He has witnessed several runs made by the companies and considers them as fast as any he has ever seen.

J. C. Owen.

J. C. Owen, 75 years old, a Confederate veteran, died of general debility in Tyler at 12 o'clock last night. The deceased was born in Salem, Ky., and had been in Paducah nine years. He is survived by two sons and one daughter. The body will be taken tomorrow morning to Carrsville, Ky., for burial.

The gauge at the foot of the wharf registered a stage of 7.6 this morning a rise of 0.4 in the last 24 hours. Weather clear. River men expect a good stage of water throughout June.

At Alton, Ill., Monday the excursion steamer City of Providence was struck broadside by a gale and hurled against Pluett's wharf, wrecking that and twelve private yachts. There were 800 passengers, the larger part children, on board. A panic was prevented possibly by the presence of mind of the leader of a military band on the boat. He started the band to playing, thus diverting the minds of the children. The steamer was not injured to any extent. The loss to the wharf and yachts was \$12,000.—St. Louis Republic.

The Clyde is at the wharf ready to leave this evening at 6 o'clock for the Tennessee river.

The Butter left at noon today for Nashville, arriving this morning from Clarksville.

The City of Saltillo arrived last night at 9 o'clock and left at 11 o'clock for the Tennessee river.

The Joe Fowler was the Evansville jacket today.

The Dick Fowler left on time this morning for Cairo with another good passenger list.

The Peters Lee is due up tomorrow from Memphis for Cincinnati and way points. The Georgia Lee will pass down Saturday from Cincinnati to Memphis.

The James Lee arrived yesterday from Memphis to go on the ways here for repairs. The T. H. Davis and the steamer Natchez are on the ways at present and the James Lee will have to wait until the Davis gets off.

The Kentucky will come out of the Tennessee river Thursday night and lie over on Saturday evening before starting on the return trip to the Tennessee river.

Captain W. D. Pugh is in the city for a few days looking for boats and barges.

Captain J. B. Smith, of Brookport, is in the city today.

The Georgia Lee on her last trip up from Memphis to Cincinnati had a strenuous time and was up against bad luck on several occasions. Just above Caseyville she burned her boilers and was forced to go on half steam. A few hours later she struck on the shoals at "J. C." a short distance above Shawneetown. The crew succeeded in getting her off and she made slow headway to Evansville, where her boilers were repaired temporarily. She left that place early Sunday for Cincinnati.

Official Forecasts.

The Ohio from Evansville to Mt. Vernon will rise today. At Paducah and Cairo will continue rising during the next two or three days.

The Tennessee from Florence to the mouth, no material change during the next 36 hours.

The Mississippi from Chester to

Cairo, will continue rising during the next 36 hours.

Courier-Journal: Steel barges are finding considerable favor over the wooden craft of that type on Western rivers. While the first cost of a steel barge of course is considerably greater in the long run it outlasts the wooden vessel, giving many more years of hard service.

The condition of the upper Ohio is still against any prospect of coal-boat water. The rise at Pittsburg was but for a day and not sufficient to float the big field of coal over the low places, and it has given place to a decline which promises to hold on a while. Cincinnati and Louisville reported a decline. At St. Louis the rise continues.

Will Appeal Schwab Case.

Attorneys for creditors in the bankrupt matter of Moses Schwab are preparing to appeal the decision of Judge Walter Evans, of Louisville, and will file the necessary papers this week. The appeal will be made to the circuit court of appeals in Cincinnati. Judge Evans confirmed the action of the referee, Hon. E. W. Bagby, who decided that the claim of T. Schwab, wife of the bankrupt, amounting to over \$2,000, was good, and ordered it pro rated. He also overruled exceptions filed to the petition for a discharge on the claim that Schwab had failed the account of \$10,000 in his petition.

Referee Bagby Sustained.

Referee E. W. Bagby has been upheld in three actions which have been hanging fire in the bankruptcy court for some time, and the action of the court bespeaks much for his judgment. The actions were reported to the federal clerk here this morning and are in the cases of Will Harris & Co., Will Linn and L. C. Linn of Murray; M. G. Sale, of the city, and Thomas Reeves, of Ballard county. In each action fights had been made against the discharge and in each Referee Bagby overruled the specifications of exceptions and sent the cases to Louisville with recommendations for a discharge. This morning the court reported his action, confirming the decision of Judge Bagby.

AUTOMOBILE

MANUFACTURE IS REVOLUTION-IZED IF IT SUCCEEDS.

W. H. Parham Patents Scheme to Do Away With Pneumatic Tires and Springs.

W. H. Parham has invented a wheel which is expected to do away with pneumatic tires and springs on automobiles. The improvement in the wheel is in the spokes, they being elliptical, the pointed end resting on the hub and the round end resting against the rim. Hard rubber tires will be used.

Foreman Bros. have examined the wheel and believe it to be a good thing. Parties in St. Louis who have seen the wheel think that if successful it will be used extensively on railway coaches as well as automobiles. Mr. Parham has gone to Anderson, Ind., to make a practical test of the wheel and if this is satisfactory the invention will develop a large industry. Mr. W. H. Parham and Mr. F. E. Lack are joint owners of the patent.

BARBED WIRE

SERIOUSLY INJURES STORM-FRIGHTENED HORSE.

Rushes Against Fence and Pieces Are Torn From Legs and Breast By Barbs.

A fine horse belonging to Mr. Charles Kirchoff, of the Afton Heights section of the county, was badly injured yesterday afternoon in a mad rush against a barbed wire fence. The horse was in a pasture. The wind blew down a rotten tree stump and the horse became frightened. It ran into the fence and tore great pieces of flesh loose from its legs and breast. The wounds will get well and it is thought, will not mean a permanent injury, no tendons or muscles being severed.

TOO MUCH JEWELRY.

Ross Campbell Caught Prowling and Held On Suspicion.

Ross Campbell, colored, is under arrest for disorderly conduct, and pending trial the police are investigating another matter and hope to bring him into a serious charge. Campbell resides in the rear of the Empire flats on Broadway and last night was found prying about some private residences. He was seen and arrested. It is stated he was not entirely dressed and after the arrest was made, police officers made a search of his room and found several valuable diamond rings and trinkets. Campbell will have to tell where he got the jewelry.

This afternoon an examination of the jewelry found in the prisoner's room was made and one small diamond ring had engraved on the inside "H. K. to L. M. S." This may elicit tonight before the French Meteorological original owner of the jewelry, if it is stolen.

Beautiful Ceremony.

The wedding of Miss Henriette Koger and Dr. Vernon Blythe, which was solemnized last evening at 8:30 o'clock at the Broadway Methodist church, was especially beautiful and was witnessed by a large and brilliant assemblage.

The church was most effectively decorated in green and white. The chancel was a bank of palms and ferns with the graceful southern smilax entwined in the altar rail and festooned about the double doorway and windows. The windows were, also, banked with ferns. The only flowers used were the Ascension Lilies. Sheaves of these were in the aisles where the white ribbons crossed, and were on each side of the altar where the bride couple knelt. They were, also, used with pretty effect among the green plants and vines.

The bride party advanced to the altar simultaneously down the three main aisles. Miss Marie Scovel, of Jacksonville, Fla., and Miss Martha Davis Mr. Edson Hart and Mr. Edward Bringham entered from the left; Miss Mabel Weeks and Miss Ruth Weil, Mr. Dow Wilcox and Dr. I. B. Howell from the right; and Miss Ann Rhea and Miss Frances Harris, of Nashville, Tenn., Mr. David Koger and Dr. Frank Bourne in the center aisle preceded the maid of honor, Miss May Phelps, of Washington, D. C. The bride entered with her father Capt. James Koger. At the altar the bride party were met by the groom and the best man, Mr. Arthur Y. Martin and the ceremony was said by the Rev. M. E. Chappell, of Princeton, Ky. Mr. Harry Gilbert was at the organ. The Lohengrin wedding march was the processional, "Simple Confession" was played throughout the ceremony; and the Mendelssohn wedding march was the recessional.

The bride looked especially charming in a beautiful dress of white satin, made princess and trimmed with real lace. She wore the bridal veil with orange blossoms and carried a shower bouquet of bride roses and lilies.

The maid of honor, a strikingly handsome girl, was effectively gowned in white net over silk, artistically trimmed with pink roses. She wore the short veil fastened with the pink Prince of Wales tips and carried pink roses.

The bridesmaids were very charming in pretty gowns of white radium silk and bridesmaid's veil with the pink Prince of Wales tips. They carried shower bouquets of pink sweet peas.

After the church ceremony the bride party and a limited number of friends were entertained at the house of Capt. and Mrs. James Koger on Jefferson street. The house was most attractively decorated in white and green, lilies, roses and ferns being used in the parlors and dining room.

The bride's table was a pretty effect in white, pink and green. A tall vase of bride roses arranged on a mirror filled the center. The lilies were white and green and the cakes were iced with pink and green roses on white. The candy was wreaths of pink, white and green.

The bride's cake had white ribbons extending to the places of the bride party, these were pulled instead of the cake being cut. The ring fell to Miss Ruth Weil; the thimble to Miss Kathleen Whitefield; the dime to Miss Frances Harris; the button to Miss Marie Scovel; the copper cent to Miss May Phelps; the shoe to Mr. David Koger. The bride's bouquet was caught by Miss Phelps.

Among the out-of-town guests present for the wedding were: Mr. and Mrs. Isaac Rhea and Miss Louise Rhea, of Nashville; Mr. and Mrs. R. M. Isler, of Hickman; Mr. and Mrs. John Dillon, of Hickman; Mr. J. C. Helmer, of Covington, Ky.

Dr. and Mrs. Blythe left at 3:45 this morning on an extended bridal trip and will be at home after June 30 at 725 Jefferson street.

Mrs. Ethel Watts Mumford Married. The New York Herald of Sunday says:

"In the presence of relatives only Mrs. Ethel Watts Mumford, playwright, authoress and artist, was married to Mr. Peter Geddes Grant yesterday at the residence of her mother, Mrs. D. G. Watts, No. 31 West 81st street. Mrs. Mumford, who was given away by her brother, Mr. Samuel Hughes Watts, was unattended. Mr. Grant's best man was Mr. Rufus Leavitt. Mr. and Mrs. Grant will pass the greater part of the summer at their country house in Port Washington, L. I. In August they will sail for a visit to Mrs. Grant's former home in Scotland."

Mrs. Grant is a niece of Mrs. Annie Hughes Morrow and Messrs. Samuel, Will, Haskell and George Hughes, of this city. She often visited here as a child. Miss Ethel Morrow, a cousin, was in New York for the wedding and will remain for the summer with her aunt, Mrs. Watts.

Delightful Chapter Meeting.

Paducah chapter, United Daughters of the Confederacy, held its meeting for June yesterday afternoon with Mrs. Henry Horace Clough, on Clay and Ninth streets. It was the final meeting of the chapter until September and there was much routine business to be transacted. A social meeting followed the business session. Mrs. Henry H. Duley gave an interesting recitation and Miss Rella Coleman some piano selections. A delightful two-course luncheon was served. The lilies were in red and white and had the Confederate and British flags symbolized in compliment to the south land and to Mrs. Clough's adopted country, her husband being an Englishman. It was a pretty design, effectively carried out.

The September meeting of the chapter will be with the president, Mrs. Joseph H. Thompson, of Jefferson street.

Reception to Seniors.

The reception given the graduating class of 1906 by the Junior and Sophomore classes of the Paducah High School, at the high school last night was a success. The reception was attended by the members of the school board, which held a short session preceding the reception and the affair was one of the most pleasant and satisfactory of the year. There were about 200 present.

Class Day.

Tonight the class day exercises will be held at the high school auditorium and there will be a large audience to greet the class. The exercises are not open to all but only to those who are invited. Invitations were sent to the friends and families of the graduates and only these will be admitted. The class is fully up in the program and the exercises doubtless will go through without a hitch.

SERVANT PROBLEM STARTS BIG ROW

Speaker Before General Federation Executes Retreat.

Miss Casey Favors Unions for Working Girls and Housewives Get Excited.

HOT WORDS FOLLOW SPEECH

St. Paul, June 6.—At the session last night of the general convention of the Federation of Women's clubs, Miss Casey, a labor organizer, and Mrs. W. B. Chevis, of St. Louis, president of the Tuesday club, were the principal speakers.

It is the first time that members of organized women workers have been invited to meet with the general federation. Miss Casey strongly favored organization of trades' unions by the women workers, saying that, while she did not like strikes, yet the lot of the woman worker was a constant struggle against her male competitors and her employers, and that the only hope was to put the women on a parity with the men, through the trades unions.

Had not friends of Miss Casey executed a rapid flank movement, when she had finished speaking, and rescued her from a band of irate club women headed by Mrs. Chivvis, there is no telling how the conference might have ended. Miss Casey's remarks apparently stirred the wrath of some of the club women, who have been coping with the servant girl problem, and when the conference was over they made a charge on Miss Casey, firing a rapid volley of questions, cross-questions and arguments at her until the poor girl was overwhelmed. Mrs. Chevis, heading the charge with wild gesticulations, ordered the working girls "back to the kitchen," which she said were yawning for them, and offered a panacea for all the troubles of the working girls depicted in Miss Casey's clever address.

Loses Her Temper.

"We have been ridden to death by the working girls," declared Mrs. Chevis. "Why don't you come into our homes where you can get good wages, excellent board, a fine home and easy hours?"

Miss Casey replied that most working girls were not competent to do housework, did not like to do housework, and, besides, did not intend to run homes for women who were incompetent or too lazy to run them for themselves. Girls working in factories could not afford to lay off long enough to hunt a berth in one of those cozy homes pictured by Mrs. Chevis.

"Not time enough to look for work?" exclaimed Mrs. Chevis, with an expressive throwing out of her arms. "Why, we would go right into factories and take you into our homes if you would come. We are paying \$6, \$10 and \$12 a week for servant girls, but because of your stubborn pride you prefer to click, click, week after week, in your smelly workshops and eat poor food."

Here a squad of the Illinois delegates surrounded Miss Casey and swept her away and the incident was closed.

There's a Hill at Bowie, Tex., that's twice as big as last year. This wonder is W. L. Hill, who from a weight of 90 pounds has grown to over 150. He says: "I suffered with a terrible cough, and doctors gave me up to die of Consumption. I was reduced to 90 pounds, when I began taking Dr. King's New Discovery for Consumption, Coughs and Colds. Now, after taking 12 bottles, I have more than doubled in weight and am completely cured." Only sure Cough and Cold cure. Guaranteed by McPherson's Drug Store. 50c and \$1.00. Trial bottle free.

Pinkerton officiating, and this morning at 2:40 o'clock the body was taken to Dresden. The Masons attended the funeral and accompanied the body to the train.

GET NEW TIN SHOP FOR THE I. C. ROAD

Authority for Building it Has Reached Paducah.

Up-to-Date Machinery Will Be Installed in Structure When It Is Completed.

NEWS OF THE RAILROAD MEN

After over a year and a half of figuring, inspections, more figuring and more inspections, the Illinois Central is to have a new tin shop in Paducah and the work will begin at once. The matter of letting the contract is now under consideration, but the definite and gratifying fact to local Illinois Central officials lies in the authority that has been given for immediately beginning work on the new shop.

Yesterday W. C. Waggener, supervisor of buildings and bridges of the Louisville division arrived in Paducah and in his pocket carried authority to begin work on the new tin shop. The plans are in his hands and he is this week working with contractors preparing to take bids on the job.

It is undecided whether the Illinois Central will take the matter in hand and build it or let the contract to an individual. It is stated that the latter method is preferable. F. W. Katterjohn and several other local contractors went out yesterday to inspect the site and look at the plans. Figures will be furnished immediately and it is said the actual work of digging the foundations will begin by next week.

The new tin shop is to be built between the freight car repairing shops and the west fence. The dimensions will be about half the size of the other buildings.

It is stated that new machinery will be secured and this will make a valuable and much needed addition to the shops.

Breaking a Practice.

Inventive genius asserts itself in a pinch and this fact is demonstrated in the solution of a problem which had long been troubling the woodworkers in the Illinois Central planing mill. There are several cups used at the water barrel and at noon employees would take charge of them, fill them with ice water and retain them during their lunch. There were too few cups to go around and the question of breaking up the practice was solved by Ed Wheeler, the popular foreman of the tin shop. The tin cups were flat on the bottom and could be easily set down during lunch. Mr. Wheeler made funnels, running to a sharp point and soldered them to the bottoms of the cups. This makes it impossible to set the cups down and the workmen have ceased to confiscate them during the noon hour.

Wages for Carmen.

Quincey Wallace, secretary of the joint protective committee of the Brotherhood of Railway Carmen, will leave tonight at 6 o'clock for Fulton to meet a party of delegates from the order who will go to Chicago tonight to have a conference with Superintendent of Machinery William Renshaw, relative to a contract for the carmen for the present year. Mr. Wallace has been the host of Mr. Albert Alquist, the Memphis delegate, today and the two will go together. The carmen are asking for only ten cents increase and few real concessions this year. It is probable that if they get it, it will mean the last demand for an increase, as the scale will then be uniform.

Noah McLaughlin, son of James McLaughlin, of the Illinois Central, has gone to Joliet, Ill., to work at his trade. He is a machinist, and has been working in the local Illinois Central shops.

T. M. Baughan, master car builder, of the Illinois Central, was able to be at his office this morning after a week's illness of malarial fever.

The Illinois Central wrecker went to Big Clifty yesterday and picked up the enormous iron fly wheel which rolled off a car several weeks ago. One hour was consumed in hoisting the wheel onto a car. The wrecking derrick car was supplied with a special crane for lifting the wheel.

Mr. Edgar Martin, employed in the Illinois Central woodworking shops, was struck by a jack lever yesterday and his lips were cut. The injury was dressed at the Illinois Central hospital.

Mrs. Harry E. Johnson and daughter have returned from Rutherford, Tenn., after visiting relatives.

THE MAN ON THE BOX

By HAROLD MacGRATH
Author of "The Grey Clock," "The Puppet Crown"

Copyright, 1904, The Bobbs-Merrill Company.

"He does that, sir," replied the groom. "He has never taken less than a red ribbon. Only one horse beat him at the bars last winter in New York. It was Mr. Warburton's fault that he did not take first prize. He rode him in the park the day before the contest and the animal caught cold, sir."

And then it was that this hero of mine conceived his great (not to say young and salad) idea. It appealed to him as being so rich an idea that the stables rang with his laughter.

"Sir?" politely inquired the groom. "I'm not laughing at your statement, my good fellow; rather at an idea which just occurred to me. In fact, I believe that I shall need your assistance."

"In what way, sir?"

"Come with me."

The groom followed Warburton into the yard. A conversation began in low tones.

"It's as much as my place is worth, sir. I couldn't do it, sir," declared the groom, shaking his head negatively.

"I'll guarantee that you will not suffer in the least. My brother will not discharge you. He likes a joke as well as I do. You are not handed \$20 every day for a simple thing like this."

"Very well, sir. I dare say that no harm will come of it. But I am an inch or two shorter than you."

"We'll tide that over."

"I am at your orders, sir." But the groom returned to the stables, shaking his head dubiously. He was not thoroughly convinced.

During the morning ride down-town the two women were vastly puzzled over their brother's frequent and inexplicable peals of laughter.

"For mercy's sake, what do you see that is so funny?" asked Nancy.

"I'm thinking, my dear; only thinking."

"Tell us, that we may laugh too. I'll wager that you are up to some mischief, Master Robert. Please tell," Nancy urged.

"Later, later; at present you would fall to appreciate the joke. In fact, you might make it miscarry; and that wouldn't do at all. Have a little patience. It's a good joke, and you'll be in it when the time comes."

And nothing more could they worm out of him.

CHAPTER V.

THE PLOT THICKENS.

At dinner that night I met my hero to face for the first time in eight years and for all his calling me a duffer (I learned of this only recently), he was mighty glad to see me, slapped me on the back and threw his arm across my shoulder. And why shouldn't he have been glad? We had been boys together, played hooky many a school-time afternoon, gone over the same fishing grounds, plunged into the same swimming-holes, and smoked our first cigar in the rear of my father's barn; and it is the recollection of such things that cements all the more strongly friendship in man and man. We recalled a thousand episodes and escapades, the likings we got, and the likings the others got in our stead, the pretty school-teacher whom we swore to wed when we grew up. Nobody else had a chance to get a word in edgewise. But Nancy laughed aloud at times. She had been a witness to many of these long-ago pranks.

"What! you are not going to the ball?" I asked, observing that he wore only a dinner-coat and a pair of morocco slippers.

"No ball for me. Just as soon as you people lie forth, off comes this billed shirt, and I shall probably meander around the house in my new silk pajamas. I shall read a little from

"NO BALL FOR ME."

Homer—Jack, let me have the key to that locked case; I've an idea that there must be some robust old, merry old tales hidden there—and smoke a few pipes."

"But you are not going to leave Mrs. Warburton and your sister to come home without escort?" I expostulated.

"Where the deuce are you two men going?" Robert asked, surprised. Somehow, I seemed to catch a joyful rather than a sorrowful note in his tones.

"An important conference at midnight, and heaven only knows how long it may last," said Jack. "I wish you would go along, Bob."

"He can't go now, anyhow," said the

pretty little wife. "He has got to stay now, whether he will or no. William will see to it that we women get home all right,"—and she busied herself with the salad dishes.

"Go to the ball, you beauties, dance and revel to your heart's content; your brother Robert will manage to pass away the evening. Don't forget the key to that private case, Jack,"—as the women left the table to put the finishing touches to their toilets.

"Here you are," said Jack. "But mind, you must put those books back just as you found them, and lock the case. They are rare editions."

"With the accent on the rare, no doubt."

"I am a student, pure and simple," said Jack, lowering his eyes.

"I wouldn't swear to those adjectives," returned the scallawag. "If I remember, you had the reputation of being a high-jinks man in your class at Princeton."

"Sh! Don't you dare to drag forth any of those fool corpses of college, or out you go, bag and baggage," Jack glanced nervously around the room and toward the hall.

"My dear fellow, your wife wouldn't believe me, no matter what I said against your character. Isn't that right, Chuck? Jack, you are a lucky dog. If there ever was one. A handsome wife who loves you, a kid, a fine home and plenty of horses. I wonder if you married her for her money?"

Jack's eyes narrowed. He seemed to muse. "Yes, I believe I can do it as easily as I did 15 years ago."

"Do what?" I asked.

"Wallow that kid brother of mine, Bob. I hope you'll fall desperately in love some day, and that you will have a devil of a time winning the girl. You need something to stir up your vitals. By George! and I hope she won't have a cent of money."

"Lovely brother, that!" Bob knocked the ashes from his cigar and essayed at laughter which wasn't particularly felicitous. "Supposing I was in love, now, and that the girl had heaps of money, and all that?"

"And all that," mimicked the elder brother. "What does 'and all that' mean?"

"Oh, shut up!"

"Well, I hope you are in love. It serves you right. You've made more than one girl's heart ache, you good-looking ruffian!"

Then he switched over to politics, and Robert became an interested listener. Quarter of an hour later the women returned, and certainly they made a picture which was most satisfactory to the masculine eye. Bob jumped to his feet and kissed them both, a thing I lacked the courage to do. How pleased they looked! How a woman loves flattery from those she loves!

Well, William is in front with the carriage; the women are putting on their cloaks, and I am admiring the luxurious crimson fur-lined garment which brother Robert had sent to Nancy from Paris. You will see by this that he was not altogether a thoughtless lad. Good-by, Mr. Robert. I leave you and your guiding-star to bolt the established orbit; for, after this night the world will never be the same careless, happy-go-lucky world. The farce has its tragedy, and what tragedy is free of the ludicrous? Youth must run its courses, even as the gay, wild brook must riot on its way to join the sober river.

I dare say that we hadn't gone 20 minutes before Robert stole out to the stables, only to return immediately with a bundle under his arm and a white felt hat perched rakishly on his head. He was chuckling audibly to himself.

"It will frighten the girls half to death. A gray horse and a bay; oh, I won't make any mistake. Let me see: I'll start about 12 o'clock. That'll get me to the spot just as the boys leave. This is the richest yet. I'll wager that there will be some tall screaming." He continued chuckling as he helped himself to his brother's perfectos and fine old Scotch. I don't know what book he found in the private case; some old rascal's merry tales, no doubt; for my hero's face was never in repose.

We had left Mrs. Secretary-of-the-Interior's and were entering the red brick mansion on Connecticut avenue. Carriages lined both sides of the street, and mounted police patrolled up and down.

"Poor boy!" sighed Nancy. "I wonder if he'll be lonely. It's a shame to leave him home the very first night."

"Why didn't he come, then?" Mrs. W. shrugged her polished shoulders.

"Oh, my cigars and Scotch are fairly comforting," put in Jack, complacently. "Besides, Jane isn't at all bad looking,"—winking at me. "What do you say, Charlie?"

But Charlie had not time to answer. The gray-haired, gray-whiskered ambassador was bowing pleasantly to us. A dozen notable military and naval attaches nodded; and we passed on to the ball-room, where the orchestra was playing "A Summer Night in Munich." In a moment Jack and his wife were lost in the maze of gleaming shoulders and white linen. It was a picture such as few men, once having witnessed it, can forget. Here were the great men in the great world: this man was an old rear-admiral, destined to become the nation's hero soon; there, a famous general,

of long and splendid service; celebrated statesmen, diplomats, financiers; a noted English duke; a scion of the Hapsburg family; an intimate of the German kaiser; a swart Jap; a Chinaman with his peacock feather; tens of men whose lightest word was listened to by the four ends of the world; representatives of all the great kingdoms and states. The president and his handsome wife had just left as we came, so we missed that formality, which detracts from the pleasures of the ball-room.

"Who is that handsome young fellow over there, standing at the side of the Russian ambassador's wife?" asked Nancy, pressing my arm.

"Where? Oh, he's Count Karloff (or something that sounds like it), a wealthy Russian, in some way connected with the Russian government; a diplomat and a capital fellow, they say. I have never met him."

Hello! there's a stunning girl right next to him that I haven't seen before."

"Where are you going?" Nancy had dropped my arm and was gliding, kitty-corner fashion, across the floor. Presently she and the stunning girl had saluted each other after the impulsive fashion of American girls, and were playing cat-in-the-cradle, to the amusement of those foreigners nearest.

A nod, and I was threading my way to Nancy's side.

"Isn't it glorious?" she began. "This is Miss Annesley, Charlie; Betty, Mr. Henderson." Miss Annesley looked mildly curious at Nan, who suddenly flushed. "We are to be married in the spring," she exclaimed shyly; and I dare say that there was a diffident expression on my own face.

Miss Annesley gave me her hand, smiling. "You are a fortunate man, Mr. Henderson."

"Not the shadow of a doubt!" Miss Annesley, I frankly admitted on the spot, was, next to Nancy, the handsomest girl I ever saw; and as I thought of Mr. Robert in his den at home, I sincerely pitied him. I was willing to advance the statement that had he known, a pair of crutches would not have kept him away from No. 1300 Connecticut avenue.

I found three chairs, and we sat down. There was, for me, very little opportunity to talk. Women always have so much to say to each other, even when they haven't seen each other within 24 hours. From time to time Miss Annesley glanced at me, and I am positive that Nancy was extolling my charms. It was rather embarrassing, and I was bailing my gloves up in a most dreadful fashion.

As they seldom addressed a word to me, I soon became absorbed in the passing scene. I was presently aroused, however.

"Mr. Henderson, Count Karloff," Miss Annesley was saying. (Karloff is a name of my own choosing. I haven't the remotest idea if it means anything in the Russian language. I hope not.)

"Charmed!" The count's r's were very pleasantly rolled. I could see by the way his gaze roved from Miss Annesley to Nancy that he was puzzled to decide which came the nearer to his idea of womanhood.

I found him a most engaging fellow, surprisingly well-informed on American topics. I credit myself with being a fairly good reader of faces, and, reading his as he bent in to Miss Annesley's direction, I began to worry about Mr. Robert's course of true love. Here was a man who possessed a title, was handsome, rich, and of assured social position: It would take an extraordinary American girl to look coldly upon his attentions. By and by the two left us, Miss Annesley promising to call on Nancy.

"And where are you staying, Betty?" "Father and I have taken Senator Blank's house in Chevy Chase for the winter. My horses are already in the stables. Do you ride?"

"I do."

"Then we shall have some great times together."

"Be sure to call. I want you to meet my brother."

"I believe I have," replied Miss Annesley.

"I mean my younger brother, a lieutenant in the army."

"Oh, then you have two brothers?" "Yes," said Nancy.

"The dance is dying, Mademoiselle," said the count in French.

"Your arm, Monsieur. Au revoir, Nancy."

"Poor Bobby!" Nancy folded her hands and sighed mournfully. "It appears to me that his love affair is not going to run very smooth. But isn't she just beautiful, Charlie? What color, what style!"

"She's a stunner, I'm forced to admit. Bob'll never stand a ghost of a show against that Russian. He's a great social catch, and is backed by many kopecks."

"How unfortunate we did not know that she would be here! Bobby would have met her at his best, and his best is more to my liking than the count's. He has a way about him that the women like. He's no laggard. But money ought not to count with Betty. She is worth at least \$250,000. Her mother left all her property to her, and her father acts only as trustee. Senator Blank's house rents for \$5,000 the season. It's ready furnished, you know, and one of the handsomest homes in Washington. Besides, I do not trust those foreigners,"—taking a remarkably abrupt curve, as it were.

"There's two B's in your bonnet, Nancy," I laughed.

"Never mind the B's; let us have the last of this waltz."

This is not my own true story; so I shall bow off and permit my hero to follow the course of true love, which is about as rough-going a thoroughfare as the many roads of life have to offer.

(To Be Continued.)

Mr. Newlywed—"Did you say this was pound cake, my dear?"

Mrs. Newlywed—"Yes, precious, and I made it myself."

Mr. Newlywed—"Are you quite sure you—er—pounded it enough?"

HOSE BURSTS

FIRE DEPARTMENT IS CRIPPLED BY LACK OF EQUIPMENT.

Work On Fire Station, No. 2, Nearly Is Completed and Engine Will Be Installed.

Bids for 3,000 feet of new fire hose will be asked for by the fire committee of the general council, as soon as it is authorized by the board of aldermen Thursday night. The city is in need of some new hose, several sections bursting at a recent fire.

The work on the addition to fire station, No. 2, is nearly completed and will be finished probably this week. The installation of the fire engine in this station will follow on the heels of completion, the manufacturer desiring to have all the fire protection possible at once.

Harry Rudolph, stationman at the station, No. 4, is reported better today. He is suffering from blood poisoning, the result of running a nail in his hand two weeks ago.

RENT PAYS FOR LAND.

Fertile Sections of the Southwest, Where Land Sells for \$15 and Rents for \$5 Per Acre.

One of the remarkable things about about Eastern Arkansas and Northern Louisiana is the fact that cleared land rents for \$5 per acre cash, and can be bought for \$7.50 to \$15 per acre. It costs from \$6 to \$10 an acre to clear it. Other improvements necessary are slight and inexpensive.

The soil is rich alluvial, or made. It produces a bale of cotton per acre worth \$45 to \$60. This accounts for its high rental value. Other crops such as corn, small grains, grasses, vegetables and fruits thrive as well.

Alfalfa yields 4 to 6 cuttings, a ton to a cutting, and brings \$10 to \$16 per ton.

In other sections of these states, and in Texas as well, the rolling or hill-land is especially adapted to stock raising and fruit growing.

Land is very cheap, \$5 to \$10 per acre; improved farms \$10, \$15 to \$25 per acre.

The new White River country offers many opportunities for settlers. High, rolling, fine water—it is naturally adapted to stock and fruit raising. Can be bought as low as \$2 per acre.

See this great country for yourself and pick out a location. Descriptive literature, with maps, free on request.

ESTATE IN ITALY

Found to Have Been Left By Father of L. A. Lagomarsino.

Mr. L. A. Lagomarsino, of the city, is in Sheffield, Ala., investigating the title of property and securing data which may lead to his claiming a portion of a big estate in Italy. The heirs of Mr. Lagomarsino's father lately discovered that he left an estate in the old country and are setting about to recover it. Some of the necessary preliminaries take the heirs to Alabama. John Lagomarsino, another heir, has gone to Italy to investigate the matter from that end.

Chairs in the various branches of medicine and surgery were appointed as follows: Operating surgery, Dr. P. H. Stewart; general surgery, Dr. J. G. Brooks; abdominal surgery, Dr. Frank Boyd; physical diagnosis, Drs. Taylor and Bass; obstetrics, Drs. Reddick and Griffith; practice of medicine, Drs. Coleman and Sights; eye, Dr. H. G. Syndicate Investment.

We offer a special opportunity for those who would like to join a syndicate and put in from \$100 to \$7,000, and in all probability make 50 per cent on the money in three years. We have 43 houses in Worten's South Side Addition that we can sell for \$24,000; \$7,000 cash and the balance \$200 per month, and as these houses have a gross rental value of \$360 per month, it is probable that all it will cost the purchaser is the first payment, as the tenants will pay the rest. This makes a liberal allowance for losses, vacant houses and expenses. Six vacant lots will be included without extra charge in this proposition. We believe this is one of the best opportunities we have ever offered to investors. It is probable that the electric car line will go out Tennessee street through this addition and in this event this property would rise rapidly in value. It is an easy matter to make money out of the above proposition, and we will give any desired information concerning it to any one interested. Anyone having \$100 or more to invest would do well to investigate this matter, and call on or telephone us, and it may be that the investment will pay three dollars for one.

THE N. Y. CENTRAL OWNS SOME STOCK

Given the Railroads "For Traffic Reasons."

Contract for Coal Concern to Mine So Much Fuel and Railroad to Furnish Cars.

CASSATT MAY NOT TESTIFY

Philadelphia, Pa., June 6.—It is not certain that A. J. Cassatt, president of the Pennsylvania Railroad company, will be called as a witness before the Interstate Commerce Commission which resumed its investigation into alleged discrimination in the distribution of coal cars.

E. V. R. Rossiter, vice president of the New York Central and Hudson River railroad, in charge of the financial department, was the first witness. The examination was conducted by Attorney F. B. Whitney, of New York. Mr. Rossiter stated that he is a director of the Beech Creek Coal and Coke company, representing the interests of the railroad company on that board. While now a part of the Pennsylvania Coal and Coke company, its business was conducted under its original title. The railroad, the witness said, owns 5,000 shares of preferred, 5,000 shares of common stock and \$5,000,000 worth of 5 per cent bonds in the Pennsylvania Coal and Coke company.

"How did the railroad acquire its stock in the original coal and coke company?" inquired Commissioner Cockrell.

"It was given to the railroad in 1891, when the coal company was organized."

"The railroad paid no cash for it?"

"No, it was given for traffic reasons."

Signed Contract.

Continuing Mr. Rossiter said that a contract had been signed by the railroad and the coal company and the stock was given in consideration of the contract.

This contract was produced by counsel for the railroad company and read by Mr. Whitney. It was dated July 17, 1901, and by its provisions the coal company agreed to mine at least one million tons of coal every year and the railroad to furnish cars equal to that amount of coal annually, exclusive of fuel cars. The railroad further agreed to interest itself in no other coal company excepting the Clearfield Bituminous Coal corporation. The railroad also agreed to purchase 500,000 tons of fuel coal every year.

Mr. Rossiter said the Clearfield corporation was a merger of a number of small companies owned by the New York Central. These companies he said, supplied only fuel coal to the railroad.

Commissioner Clements questioned Mr. Rossiter concerning the policy of the New York Central as to its officials holding stock in coal mining companies.

He said there was no absolute rule but it was tacitly understood to be against the policy for officials to hold such stock.

In his report he recommends that Trustee Stehlin, Jr., be expelled from the board for alleged criminal negligence.

Lightning Strikes Two.

Stanford, Ky., June 6.—Henderson Young was killed by lightning this afternoon near Highland, this county, and a son of John Will Carrier was dangerously injured. He cannot recover.

Lightning's Freaks.

Mayfield, June 6.—Lightning did some very funny stunts Monday afternoon during the electrical storm. At the home of Otto Allfield, near Pryorsburg, several bricks were knocked from the chimney and several planks from the side of the house and black

spots in various places as if it had been scorched.

Lightning struck the stable of Circuit Clerk O. W. Wilson, on East Ann street, causing it to catch fire.

Mrs. Joe Sellars was standing at a window with one hand on the glass and the other on a pillow. A bolt of lightning caused a streak of fire to pass over her head inflicting a painful burn. Her arms were drenched from the shock but otherwise from the burn she was not injured.

Owensboro Fair Cases.

The offer of the Owensboro guarantors to compromise the deficit entailed by the holding of the State Fair at Owensboro in 1903, by the payment of \$10,000 to the Kentucky Live Stock - Breeders' association, was accepted. The deficit was about \$12,000.

C. C. Grassham Believes in Signs Since Receiving Reply to Query.

In the Kentucky Law Reporter a man who makes signs has an advertisement which professes so much confidence in himself to turn out signs which would be satisfactory to lawyers, that Mr. C. C. Grassham wrote to the editor of the periodical. The rather unique query and reply are given:

"Dear Sir—I see in Vol. —, of Ky. Law Reporter, in issue of May —, advertisement of —, 'The Sign Man,' in which he says 'I make all kinds of signs.' If he does this, can you tell me how he ever expects anybody to understand him? Does he explain to the people what his signs mean, and do you think he will ever outgrow the habit? Why don't you have him quit making signs and go to talking? He says he knows the kind of sign I ought to have; if so, can he tell me what it is, and tell me just when the sign is right? Does he consult the Almanac to understand his signs, or does it come natural? He asks about my sign; well, they sometimes hit and sometimes miss, but they say 'no sign is good in dry weather.' What I want is a sign that won't fail in dry weather? Do his signs fail? He says he makes the best sign for lawyers. I want to know what the best sign is; and when it will work all through the year; if not what is the best time to work it? The fact is, I don't know anything about signs, and inasmuch as you may know all about them, please tell me what sign I need. Does the moon have any effect on these signs? If so, does it effect the 'sign man'? Does the 'sign man' full when the moon

full? If he does, tell me why he don't quarter when the moon quarters? He ought to explain all this in his card; because if a man who don't understand signs should get hold of one of his signs, he might get it mixed with some other sign and there might be some confusion."

"If you don't care to answer this, just make a sign that I can understand and that will be sufficient."

"Dear Sir—While disclaiming any responsibility for the wording of my friend Ramsey's advertisement, I want to say for him that he can talk as well as make signs, and if you want a sign which will talk to the people he is the lad who will get it up for you all right. If you desire a sign which will (be a) hit at all times, in all seasons and weather, regardless of Old Probs, the groundhog and corn shuck, you want to hook on to him. They never fail, neither do the people who buy them, for they have brass. They work all right six days in the week, neither do they let up on the seventh—regardless of whether the lid be on or off. They are not recommended for moonshine, speakeasy and bootleg sections, but work to a charm amid the fluctuations of wet and dry. They are impervious to the influence of the moon but are sometimes responsible for men becoming moon-eyed. The sign man may occasionally try to full on aces while the other fellow holds a straight flush, which may cause him to reach his last quarter when I present my bill. When in our city be sure to look for the sign of Yours truly."

Lake Commerce First Four Months Amounted to Just 4,365,305 Tons.

Lake commerce during April and the first four months of 1906 exceeds that of like periods in any earlier year, and suggests a new record for lake tonnage in 1906. For the month shipments from all points on these great bodies of water amounted to 4,365,505 net tons, while for the year to April 30 they aggregated 5,418,481, a gain for the month of 1,275,042, and for the four months of 1,592,656 net tons, if compared with corresponding movements in 1905.

It should be noted, however, that the usually heavy westbound movement of coal was probably in some degree due to the storing of vast quantities of this commodity at eastern ports prior to the opening of the lakes, in anticipation of a coal strike, while the general movement of nearly all articles of commerce may have been accelerated by the fear of a general strike among steamship employees of which there seemed to be a probability during the entire month.
